PROFILE

Data Scientist and ML Engineer who likes models that hold up after the demo. **2+ years of industry experience**: I took a real-time computer vision system to **99% accuracy in production on AWS** at Agsure Innovations and became team lead for 4 interns along the way. My MSc dissertation trained a calibrated classifier on **45,152 ECGs** that catches **88.8% of serious cardiac cases**, then audited where it fails. IEEE-published. Looking for Data Scientist, ML Engineer and Applied AI roles in the UK.

TECHNICAL SKILLS

Languages	Python, SQL, R
Machine Learning	scikit-learn, XGBoost, LightGBM, TensorFlow, Keras, CNNs, NLP, feature engineering
Evaluation & Stats	SHAP, hypothesis testing, effect sizes, calibration, fairness analysis, cross-validation
Vision & Signals	OpenCV, NeuroKit2, image classification, object detection, ECG signal processing
Deployment & Tools	AWS, Docker, Flask REST APIs, Git, GitHub, Postman, Jupyter
Data & BI	pandas, NumPy, Matplotlib, Tableau, MS Excel
Currently learning	PyTorch, LLM evaluation and retrieval-augmented generation (RAG)

PROFESSIONAL EXPERIENCE

AI / ML Software Developer, promoted to Team Lead Jun 2024 – Aug 2025
Agsure Innovations Private Limited *Delhi, India*

- Built and tuned computer vision models for automated grain quality grading, reaching **99% accuracy** in a real-time production system.
- Deployed the analysis service on **AWS** and moved TensorFlow / Keras models from notebooks into production pipelines.
- Designed and tested **Flask REST APIs** (Postman) that served model predictions to the product.
- Became **team lead, guiding 4 interns** through model experiments, code reviews and deployment work.

AI Training Freelancer Jul 2026 – Present
Mercor *Remote, part time*

- Grade frontier LLM outputs against detailed rubrics, flag failure patterns and write prompt guidance used in model training.

Sales Development Representative Intern Dec 2023 – Jun 2024
Recruit CRM *Remote*

- Ran outreach to recruitment agencies across North America and supported B2B SaaS demos with Account Executives and senior leadership.

AI / ML Trainee (Industrial Training) Jun 2023 – Jul 2023
Jaypee University of Information Technology *Solan, India*

- Hands-on training in Python, classical ML and neural networks; built preprocessing pipelines and baseline models.

Data Scientist (Apprenticeship) Jul 2022 – Oct 2022
IBM *Remote*

- Applied ML to several datasets for predictive problems as part of an applied research project on predictive modelling.

PROJECTS

Arrhythmia Severity Classification from ECG (MSc Dissertation) *Jun 2026 – Sep 2026 · with Uniworx*

- **Task:** flag serious cardiac abnormalities from a single 10-second Lead II ECG across 45,152 PhysioNet records with severe class imbalance.
- **Action:** built a NeuroKit2 pipeline extracting 21 HRV, rhythm and morphology features; removed SMOTE so training used real patients only; cut collinearity (max VIF 236.9 to 12.6) before SHAP; compared RF, XGBoost and LightGBM over 16 configurations and 30 paired iterations with Holm-corrected tests.

- **Result:** calibrated LightGBM catching **88.8% of serious cases** (95% CI 87.6–90.1%) at **86.9% accuracy**, macro AUC 0.968; fairness audit exposed a recall gap across age bands (0.29 to 0.98), now reported as a key limitation.

Brain Tumour Detection (IEEE ICIIP 2023) *Deep learning research*

- Measured how CNN hidden-layer depth affects MRI classification across four tumour classes; best model reached **95% accuracy** and the study was published at IEEE ICIIP 2023.

Applicant Tracking System *NLP*

- Built an NLP system that parses resumes and ranks candidates for the university placement service, improving applicant quality by **85%**.

Driver Drowsiness Detection *Real-time computer vision*

- Tracked eye state from live video with OpenCV and a Keras classifier to trigger fatigue alerts, reaching **91% accuracy** in real time.

EDUCATION

MSc Data Science 2025 – 2026
University of Leicester, United Kingdom *Expected: Distinction*

BTech Computer Science and Engineering 2020 – 2024
Jaypee University of Information Technology, India *CGPA: 8.9 / 10*
